TASNEEM MOHAMMED MOHAMMED SAKR

UI/UX Designer

Belbeis, Al-Sharqia, Egypt | +20 103 086 0764 | tasneemsakr87@gmail.com | LinkedIn | Behance

PROFILE

UI/UX Designer with a Computer Science background, specializing in end-to-end product design — from user research and information architecture to high-fidelity prototyping and usability testing. Delivered three full case studies across forensic AI, fintech, and energy management, turning complex, data-heavy problems into clear, user-centered digital products.

TECHNICAL SKILLS

- **UI/UX Design:** User Research, Personas, Empathy Mapping, User Flows, Information Architecture, Wireframing, Prototyping, Interaction Design, Usability Testing, Responsive Design, Design Systems, Accessibility
- **Tools:** Figma (Auto Layout, Components, Design Tokens), Adobe XD, Photoshop, Illustrator, Notion
- **Development Knowledge:** HTML, CSS, JavaScript, Bootstrap

UX/UI CASE STUDY PROJECTS

Forensic – AI-Powered Forensic Platform

12-Week Project

- Led end-to-end UX/UI design for a web + mobile ecosystem integrating four AI models (Deepfake Detection, DNA Phenotyping, Face Recognition, Image Reconstruction) for forensic investigators and lab pathologists.
- Drove the research-to-design process across 123 screens — personas, empathy maps, site map, user flow, design system, and full style guide — delivering a streamlined workflow for field pathologists.

Finexa – Digital Banking Platform

7-Week Project

- Designed a next-generation mobile banking concept for freelancers, focused on transparent fees, instant transfers, multi-currency wallets, and AI-driven budgeting insights.
- Conducted user research and competitive analysis against PayPal, Revolut, and Wise; developed personas, sitemap, user flow, and content strategy across 4 core sections (Home, Payments, Insights, Profile).
- Delivered high-fidelity UI screens covering onboarding, authentication, dashboard, payments, and card management.

Electregy – AI Energy Management Dashboard

4-Week Project

- Designed a desktop dashboard ecosystem translating raw home-energy data into actionable AI-driven insights for real-time monitoring, simulation, and optimization.
- Conducted stakeholder interviews, surveys, and competitive analysis to define target personas and validate market demand.
- Built a full Design Thinking workflow with a 12-column design system and a 15-screen interactive prototype, including an AI chatbot and billing simulator.

EDUCATION

Bachelor of Science in Computer Science — Zagazig University

Sep 2022 – 2026

- Graduated with Excellent with Honors, 86.00% (GPA 3.57/4.0), Faculty of Computers and Information.

COURSES & TRAINING

Information Technology Institute (ITI) — UI/UX Training

Aug – Sep 2025

- Hands-on training in UI/UX fundamentals, wireframing, and prototyping using Figma, visual design with Photoshop & Illustrator, and responsive layouts with HTML, CSS, and Bootstrap.

Mahara-Tech — UX Design Fundamentals

Oct 2025

- Personas, user flows, usability heuristics, low/high-fidelity design, and accessibility basics.

ADDITIONAL INFORMATION

- **Soft Skills:** Communication, Problem-Solving, Time Management, Creative Thinking, Adaptability
- **Languages:** Arabic (Native), English (Good written & spoken)
